

Ideally Positioned to Handle All of Your Bulk Shipping Needs

2 Northeast Locations With the Infrastructure and the Expertise to Transload All Types of Bulk Shipments

Liquid, dry, perishable, or resin - the Raritan Central Railway and Pennsylvania & Southern Railway have the carspots, services, and logistical partners that can safely and efficiently transload all of your bulk product shipments. From individual carloads to unit trains, our operations will place your product closer to where it needs to be.

The Raritan Central Railway and Pennsylvania & Southern Railway are ideally positioned within the Northeast United States - the world's greatest marketplace. The Raritan Central operates within the 2,350

acre Raritan Center Business Park located in Edison, New Jersey, only 15 miles outside of Newark. The Pennsylvania & Southern operates within the 1,200 acre Cumberland Valley Business Park in Chambersburg, Pennsylvania. Our railroads have reliable connections to Class 1 rail carriers CSX and Norfolk Southern, allowing shippers to easily and quickly move products throughout the United States, Canada, and Mexico. Both locations have excellent highway access to major interstates and secondary roads, a feature that helps speed shipments to their destination. The Raritan Central also offers convenient international access through the Port of New York and New Jersey and Newark International Airport.

Your Complete Shipping Solution for Bulk Products

The Raritan Central Railway and Pennsylvania & Southern Railway are industry leaders in bulk transloading services. Much of our infrastructure has been modernized to accommodate the specific requirements of our bulk products customers. Our total number of carspots - both active transloading and storage-in-transit - are unequalled by any other shortline in the Northeast. The Raritan Central has 45 bulk transloading carspots and 300 storage-in-transit carspots. The Pennsylvania & Southern has 100 bulk transloading carspots and 500 storage-in-transit carspots. This extensive capacity enables both railways to handle the needs of even the largest customers. Customers who use our transloading and bulk transfer facilities enjoy guaranteed car spots, complete car/inventory tracking, and storage-in-transit capabilities free for the first 30 days.

In addition to our rail infrastructure, our operations are backed by some of the best 3PL services available in the country. Both locations feature packaging, crossdocking, warehousing, trucking and distribution services provided by some of the most respected names in the industry. The business parks we serve can also accommodate individual needs for warehouse or manufacturing space, as well as outdoor storage areas.
