

# PENNSYLVANIA & SOUTHERN RAILWAY L.L.C.

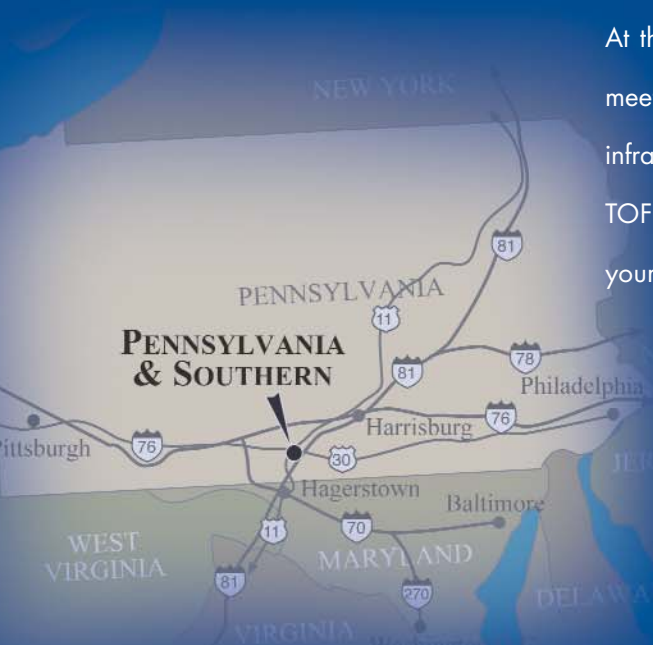

Cumberland Valley Business Park – Chambersburg, Pennsylvania

## Central Pennsylvania's Ideal Distribution Location

The Pennsylvania & Southern Railway provides seamless and timely transportation solutions for businesses located in the central Pennsylvania, western Maryland, and northeast West Virginia region. Operations are based at the Cumberland Valley Business Park in Chambersburg, Pennsylvania, a location featuring extensive infrastructure, easy highway access, and acres of available space.

At the Pennsylvania & Southern, we believe in providing specialized services that meet our customers' specific transportation, storage, or distribution needs. Our infrastructure can efficiently handle all forms of material – from paper, to plastics, to TOFC and automobiles. Take a look at how the Pennsylvania & Southern can help your business succeed by providing solutions to your logistic challenges.

Transloading   Warehousing   Storage-in-Transit   Intermodal   Third Party Logistics

# Providing Businesses With Unparalleled Opportunities for Growth in the Northeast Marketplace

## Services

At the Pennsylvania & Southern, our focus on the customer results in a level of service that is unequalled by larger railroads. Pennsylvania & Southern crews are available seven days a week, 24 hours a day. We offer on-demand switching for critical shipments, free additional daily switching, easy customer access to inventory data, and coordination of transloading and trucking services. Interchange with CSX allows shippers access to the entire North American rail network. Customers also benefit from specialty services provided through the Cumberland Valley Business Park and Letterkenny Army Depot. These services include machining, welding, painting, and electronic systems integration.

## Infrastructure

The Pennsylvania & Southern features some of the largest storage-in-transit and transloading capabilities in the Northeast. Our 25 miles of track includes two 250-car capacity classification and storage yards. Transloading tracks hold 100 cars and are easily accessed by road. Six unloading ramps enable us to handle intermodal or industrial/farm machinery on flatcars. There are also 100 acres of paved lots capable of accommodating automotive unloading. All track is 286,000# compliant.

The Cumberland Valley Business Park's infrastructure includes:

### Warehousing

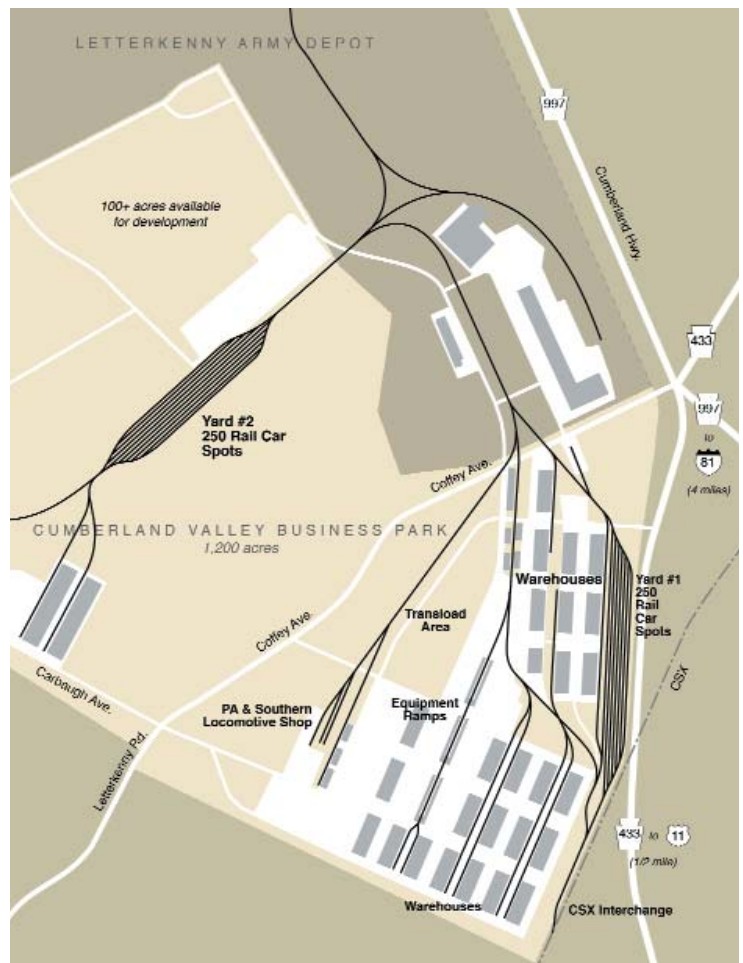

- Ability to handle a wide range of products including: paper, plastics, steel, building products, food grade, and more.
- 21 food and paper grade buildings.
- One million square feet of space under roof.
- Building products reload available.
- Third party logistics available.

### Transloading/Reloading

- Ability to handle grain, feed, plastics, forest products, steel, paper, heavy equipment, automobiles, and TOFC.
- 400 acres of outside storage.
- Rail infrastructure able to handle unit trains.

## Location

The Cumberland Valley Business Park is conveniently located only 4 miles from Interstate 81, and in close proximity to I-76 (Pennsylvania Turnpike), I-70, and U.S. Routes 30 and 11. The Harrisburg International Airport and Hagerstown Regional Airport are less than 50 miles away.
